

Ongoing Schemes

S. No	Name of the Scheme	Cost (Million)	Allocation for 2025-26 (Million)	Overall Project Targets
1	Punjab Resilient and Inclusive Agriculture Transformation (PRIAT) (2022-23 to 2026-27)	63392.387	15669.242	- Improvement of 800 unimproved watercourses - Extension of lining on 2,700 watercourses - Reconstruction of 1,300 outlived watercourses - Development of 3,000 irrigation schemes outside canal commands - Community water resources on 72 watercourses - Promotion of processing & agriculture value addition machinery and improved access to markets (Farmers Entrepreneur Groups (FEG): 550, Business Proposals (BPs): 1,000 and Productive Alliance (PA): 330) - Installation of high efficiency irrigation systems on 40,000 acres - Installation of solar systems for operating HEIS on 33,000 acres - Provision of certified orchard plants and vegetable seeds/ seedlings on 5,000 acres - Development of 1,700 on-farm water storage ponds
2	Program for Quality Seed Production and Dissemination (2021-22 to 2025-26)	1994.09	513.79	- Upgradation of Seed Processing Plants - Production of basic seed for 5 major crops - Production of Certified seed for 5 major crops
3	Revival of Citrus Sector in Punjab (2024-25 to 2027-28)	1432.037	718.532	- Establishment of 11 Screen Houses for container-grown true to type certified citrus nursery plants - Import of 40 new exotic Citrus Varieties - Establishment of 15 farmer field schools for hands on farmer trainings - Establishment of 2 Demonstration sites - Distribution of 500,000 bud-wood to registered nurseries - Development of 100,000 container-grown certified citrus nursery plants 30 Capacity building training programs - Establishment of a new "Citrus Research Center" at Toba Tek Singh
4	Transforming the Indus Basin with Climate Resilient Agriculture and Climate-Smart Water Management (2022-23 to 2027-28)	1392	125.432	- Enhancing Information Services for Climate Change Adaptation in the Water and Agriculture Sectors - Enhancing Information Services for Climate Change Adaptation in the Water and Agriculture Sectors - Developing a Water Budgeting and Accounting System - Establishing an Evapotranspiration (ET) based Water Management System - Building on-Farm Resilience to Climate Change - Improving Practices for Climate Resilience - Training of Trainers on CRA and OFWM - Developing Farmers' Capacity to Transform Agriculture Practices with CRA and OFWM - Creating an Enabling Environment for Continued Transformation - Improving Information and Awareness Raising Campaigns - Supporting Policy Implementation by Federal and Provincial Governments - Developing Services that Enable Farmers to Adopt Climate Resilient Practices
5	National Crop Genomics and Speed Breeding Centre for Agriculture Sustainability (2021-22 to 2025-26)	689.197	247.71	- Establishment of National Crop Genomics Centre - Provision of Speed Breeding Facility and availability of genetic information for early development of improved crop varieties
6	Strengthening of MNS University of Agriculture, Multan (2022-23 to 2025-26)	646.6	205.679	Establishment of Girls Hostel and Sports Complex at MNS University of Agriculture Multan
7	Mitigating the Emerging Issues of Pesticide Residues in Vegetables and Rice through Capacity Building of Farmers and Extension Agents (2022-23 to 2025-26)	317.723	36.871	- Establishment of 150 IPM Demo Plots - Conduct of 3,600 on-spot trainings (small gatherings) - Conduct of 300 demo block trainings - Conduct of 33 mega events - Distribution of 150,000 brochures during pest surveillance and mega events

				- Conduct of 150 radio talks on agriculture-related issues - Conduct of 6 TV talks on agriculture-related issues - Conduct of 600 pesticide residue analyses (vegetables and rice)
8	Upscaling of Date Palm Research Sub-Station, Jhang & Papaya Promotion through Varietal Improvement & Management of Papaya Leaf Curl Virus (2022-23 to 2025-26)	224.552	118.678	- Selection of 15 indigenous/exotic date palm cultivars - Enrichment of the germplasm unit at DPRSS, Jhang with 1,400 accessions - Development of 3 novel production technologies for date palm - Screening of 2 papaya hybrids - Development of 3 novel production technologies for papaya - Preparation of 2 training manuals - Conduct of 32 farmers' training programmes - Provision of 19,000 true-to-type papaya nursery plants to farmers at government-notified rates - Construction of a research complex at Date palm Research Sub Station, Jhang - Renovation of laboratories at Plant Virology Section, Faisalabad
9	Mapping of Soil Series in Selected Areas of Sargodha District under Citrus Orchards and Infrastructure Improvement of Soil Survey of the Punjab (2022-23 to 2025-26)	133.415	73.595	
10	Lining of Watercourses at Smart Farm, Kundai, Cholistan (2024-25 to 2025-26)	78.12	23.42	Lining/ construction of 12.12 km length of watercourse and water control structures at Smart Agri Farm, Kundai, Cholistan.
